- Weeks 1 – 12 We will use 15 Rinehart 3D targets 2 arrows per target (scores: center vital- 10, outer vital ring-8 body shots -5 leg shots-0) (11 ring is optional depending on what we want for scoring- can be just marked as an “x” for tie breaking feature)

IBO Scoring

-
- **Scratch** Score Maximum is 300pts (330 pts possible if using the 11 ring)
- **Weekly scores MUST be recorded in the League Binder.**

Handicaps:

- Members will have their handicap calculated when 2 rounds have been completed.
- Handicap calculation will be as follows:
 - $(300 - \text{Average score}) * 0.85 = \text{Handicap}$.
 - “Average score” is based on the average of your previous two scores entered
 - Weeks 1 and 2 handicap will be based on scores from those two weeks
 - Weekly Scratch score + Handicap = Weekly handicap score. **Handicapped max score is 300 (330 for x-scoring)**. (Ex. Scratch score of 270 + a handicap of 35 will result in a handicapped score of 300)

Running scores will be posted in the Clubhouse

Team Event: Highest Team Score

- 4 Shooters per Team (may change with participation)
- All 4 shooters' handicapped scores will be averaged to determine the weekly Team Score.
