

We are starting the 2023 Steel Challenge season once again with the Frozen Fingers 22 rimfire League on Range 2 starting at 1 PM on Saturday February 4th. The league will be open to HRGAC members only and will last for 4 Saturdays with the next Saturday as a makeup day to make up for up to 2 days of missed shooting. The league fees will be \$30 including 1 gun and \$10 additional for the 2nd gun. Pay your fee to the club bartender and keep your receipt for proof of payment the day the league begins. Payout for 1st/2nd place will be \$25 for 1st Place and \$15 for 2nd Place for Rifle and Pistol Divisions. Your cumulative String times will be your score so the payouts will go to the fastest 2 rifle and 2 pistol shooters.

The four Spring and Summer Leagues will start on Monday April 3rd at 5 PM. League Fees and Payouts will be the same for HRGAC members. I am working with the Club Board to allow non-members to participate in the Spring and Summer leagues this year. This is not final yet as there are a couple things that need to be worked out. I will keep you posted.

I am attaching the League rules and the Schedule. Please familiarize yourself with the rules that we have to operate under in order to provide optimum safety for our participants. Previous leagues have allowed all of us to improve our shooting. Steel Challenge is at once a very enjoyable but challenging shooting sport. All of us started with basic 22 semiautomatic rifles and pistols and proceeded to learn a lot about the sport. Some of us have progressed faster or farther than others but all of us have improved our shooting while having a great time.

Clip fed 22 semiauto rifles and pistols are needed for this competition. It is best to have several clips and 5 is ideal in order to minimize loading delays while shooting the 5 stages each day. Someone will load for you while you shoot if needed. We are looking to have new shooters this year and those of us with more experience are happy to give advice to help you to enjoy our sport.
