

HRGAC - 22 Rifle League

BACKGROUND:

The HRGAC's .22 League is a historic league that has been in place since at least 1964. Traditionally, equipment used was more geared toward precision shooting with high accuracy capable rifles and specific shooting clothing.

TODAY, we offer a SPORTER division for those just starting out. You can use a Club Rifle if you do not own one or bring any out of the box .22LR with a scope or without.

PURPOSE:

In general, .22 rifle shooting is recognized as being both a starting point and a maintenance point for all types of other shooting, be it competition, recreational or hunting. This League utilizes the Winchester/NRA Marksmanship Qualification Program to make an effort to draw in new shooters (young and old), as well as continue offering a program for the experienced precision shooters who want to continue with the traditional NRA 3/4p program.

YOUTH & PARENTS

Our goal is to offer a continuing shooting program to youth who have graduated or aged out of the very successful club BB Gun Program. Listed rules and courses of fire are defined from the Winchester Rimfire Rifle Qualification and the NRA Smallbore Rifle Rule books.

Getting Started

New, first time, just interested, curious, wondering what is offered beyond BB-Gun? Find out what it is all about, join us any time, we are happy to talk with you.

We welcome all Club Members ages 14* and up.
